CORPORATE GOVERNANCE GUIDELINES FOR THE BOARD OF DIRECTORS

The Board of Directors (the "**Board**") of Mercer International Inc. (the "**Company**") is responsible for overseeing the exercise of corporate powers and ensuring that the Company's business and affairs are managed to meet its stated goals and objectives and that the long-term interests of the shareholders are served. The Board recognizes its responsibility to engage, and provide for the continuity of, executive management that possesses the character, skills and experience required to attain the Company's goals and its responsibility to select nominees for the Board of Directors who possess appropriate qualifications and reflect a reasonable diversity of backgrounds and perspectives.

Composition

Pursuant to the Company's Bylaws, the Board shall be comprised of not less than three and not more than thirteen¹ directors with the specific number to be set by the Board. The Board shall, based on the recommendation of its Governance and Nominating Committee, periodically review the size of the Board and determine the size that is most effective in relation to future operations and strategic plans.

Currently, the Board is to be comprised of up to ten members, a majority of whom shall meet the independence requirements of the Nasdaq Stock Market then in effect. Upon receipt of the recommendation of the Governance and Nominating Committee, the Board of Directors shall appoint a new member or members in the event that there is a vacancy on the Board that reduces the number of members below the number determined by the Board as aforesaid or in the event that the Board determines that the number of members on the Board should be increased.

Meetings

The Board shall meet at least four (4) times each fiscal year and may hold additional meetings as often as may be necessary or appropriate, in the discretion of the chairperson of the Board (the "**Chair**") or the Chief Executive Officer ("**CEO**"). Participation in such meetings may be in person or by electronic means in accordance with the Bylaws. At least one meeting of the Board in each fiscal year shall focus primarily on strategic planning for the Company. Prior to each meeting, the Chair or the CEO will circulate the agenda for the meeting for input and management will send out appropriate preparatory materials to each member of the Board.

Members of the Board are expected to use all reasonable efforts to attend and participate in each meeting. The Chair may also request that members of management, legal counsel, or other advisors attend the meetings of the Board.

Minutes of each meeting shall be prepared under the direction of the Chair and circulated to each member of the Board for review and approval.

Authority and Responsibilities of the Board

The fundamental responsibility of the Company's Board is to promote the best interests of the Company and its shareholders by overseeing the management of the Company's business and affairs. In doing so, Board members have two basic legal obligations to the Company and its shareholders: (1) the duty of care, which generally requires that Board

members exercise appropriate diligence in making decisions and in overseeing management of the Company; and (2) the duty of loyalty, which generally requires that Board members make decisions based on the best interests of the Company and its shareholders, without regard to any personal interest.

As part of its oversight of the management of the Company's business and affairs, the Board oversees the Company's annual plan and budget and risk management, including, oversight of environmental, social and governance ("**ESG**") and related matters. The committees of the Board, which meet regularly and report back to the full Board, play significant roles in carrying out the risk oversight function, including applicable ESG matters related to the responsibilities of such committees. Management is charged with managing risk through robust internal processes and effective internal controls.

The Board has the authority to retain, at the Company's expense, consultants, legal counsel or other advisors to assist the Board in conducting its business and meeting its responsibilities to the Company and its shareholders, and authority to approve such advisors' fees and other retention terms.

Guidelines

The Board is responsible for organizing its functions and conducting its business in the manner it deems most effective and efficient, consistent with its duties of good faith and due care. To meet that responsibility, the Board has adopted a set of flexible guidelines to guide its governance practices in the future. These guidelines, set forth below, will be regularly re-evaluated by the Governance and Nominating Committee in light of changing circumstances in order to continue serving the best interests of shareholders. Accordingly, the summary of current practices is not a fixed policy or resolution by the Board, but merely a statement of current practices that is subject to continuing assessment and change.

Determination of Independence of Non-Employee Directors

No relationship between any non-employee director and the Company should be of a nature that could compromise the independence or judgment of any Board member in governing the affairs of the Company. The determination of what constitutes independence for a non-employee director in any individual situation shall be made by the Board in light of the totality of the facts and circumstances relating to such situation and in compliance with the requirements of the Nasdaq Stock Market's applicable listing standards and other applicable rules and regulations.

Committees

The present standing committees of the Board are the:

- Audit Committee;
- Human Resources Committee (the "**HR Committee**");
- Governance and Nominating Committee; and
- Environmental, Health and Safety Committee (the "**EHS Committee**").

All members of all committees (other than the EHS Committee) shall be non-employee directors of the Company and meet the independence requirements applicable to membership on each committee of the Nasdaq Stock Market, applicable law, and the applicable rules and regulations of the Securities and Exchange Commission (including, with respect to audit committee membership, Section 10A(m)(3) of the Securities Exchange Act of 1934 (the

"Exchange Act")), in each case as may be in effect from time to time. The Board considers its current committee structure to be appropriate but the number and scope of committees may be revised as appropriate to meet changing conditions and needs.

The Governance and Nominating Committee is responsible for reviewing and recommending to the Board, at least annually, the assignment of directors to various committees. The Governance and Nominating Committee will also recommend to the Board from time to time changes in committee assignments to ensure diversity of Board member experience and to vary the exposure of the members to the affairs of the Company.

The duties and responsibilities of the Board committees are set forth in their respective charters. Such charters and the authority and responsibilities of the Committees may be amended or modified by the Board from time to time.

Unless specified otherwise, the following procedural rules apply to standing committees of the Board:

- Each committee shall meet on the call of the chairperson of the committee or of two members of the committee or of the Chair or the CEO;
- The quorum for the conduct of business of a committee shall be a majority of the number of its members. The committee shall have full power and authority to act notwithstanding that there may be one or more vacancies in its membership;
- The Board shall appoint the chairperson of each committee, failing which the members of that committee shall elect a chairperson from amongst their number;
- The chairperson of a committee shall appoint a secretary to take minutes of meetings and otherwise record the proceedings of the committee. Failing such appointment, the chairperson of the committee shall also act as its secretary;
- In the exercise of its absolute discretion the Board may remove or replace any member of any committee and may fill any vacancies. Any member of a committee who shall for any reason cease to be a director of the Company shall *ipso facto* cease to be a member of that committee; and
- Any committee may appoint sub-committees of one or more people, a majority of whom must be members of the committee.

The chairperson of each committee shall report to the Board at its regularly scheduled meeting all deliberations and actions taken since the previous report.

The minutes of all meetings of each standing committee will be made available for review by all members of the Board unless otherwise determined by the Board.

Except as otherwise prescribed by the Board, the Articles and Bylaws of the Company applicable to the conduct and meetings of the Board shall apply *mutatis mutandis* to all committees.

Board Membership Criteria

The Governance and Nominating Committee is responsible for, among other things, reviewing the appropriate skills, qualifications and other expertise required of directors in the

context of prevailing business conditions and the Company's current business strategy for making recommendations to the Board regarding the size and composition of the Board. The objective is a Board that brings to the Company a variety of perspectives and skills derived from high quality business and professional experience.

Majority Voting

The Company has adopted majority voting procedures for the election of directors in uncontested elections. In an uncontested election, nominees must receive more "for" than "against" votes to be elected. The term of any director who does not receive a majority of votes cast in an election held under the majority voting standard will terminate on the earliest to occur of (i) 90 days after the date election results are certified; (ii) the date the director resigns; or (iii) the date the Board fills the position.

Procedure for Selecting New Director Candidates

The Board is responsible for recommending the candidates to stand for election at the annual meeting of shareholders. The Board has delegated the screening and nomination process to the Governance and Nominating Committee. The Governance and Nominating Committee is expected to work closely with the Chair and the CEO in determining the qualifications desired in new Board members and to select or recommend candidates to the full Board, including any candidate recommended by the Board to stand for election at the annual meeting of shareholders.

Extending the Invitation to a Potential New Director to Join the Board

Upon concurrence of the members of the Board, invitations to join the Board will generally be extended on behalf of the Board by the Chair or the chairperson of the Governance and Nominating Committee. Other Board members may participate as appropriate.

Board Member Orientation and Continuing Education

The Governance and Nominating Committee (along with senior management including the CEO), shall maintain and oversee an orientation process to acquaint new directors with the business, history, current circumstances, key issues and top managers of the Company. Such process shall include visits to the Company's key operating facilities.

Directors are also encouraged to participate in external continuing education programs, as they or the Board determine is desirable or appropriate from time to time.

Selection of Agenda Items for Board Meetings

The Chair together with the CEO shall develop the agenda for each Board meeting. The agenda is circulated in advance to the Chair and Board members may suggest additional or alternative items for consideration.

Board Materials Distributed in Advance

As much information and data as practical relating to the meeting agenda items and the Company's financial performance shall be sent to Board members sufficiently in advance of meetings to permit the directors to review the materials and prepare for meetings.

Executive Sessions of Independent Directors

Each Board meeting will include time for an executive session with only independent directors present.

Selection of the Chair

The Board appoints a director as the Chair from time to time pursuant to the Company's Bylaws and in the manner and based on the criteria that it deems appropriate and in the best interests of the Company given the circumstances at the time of such appointment. The Governance and Nominating Committee is responsible for reviewing and recommending to the Board on an annual basis, or upon a vacancy, a director for election as Chair.

Role of Chair

Upon the recommendation of the Governance and Nominating Committee, the independent members of the Board shall select a Chair. The Chair shall serve in that capacity until he or she resigns from such position or from the Board or such earlier time as determined by the Board.

Qualifications of Chair

In order to serve as Chair, an individual must be a director of the Company and must meet the independence standards of the Nasdaq Stock Market. Additionally, a director must, (1) be available to work closely with and act as an advisor to the president and chief executive officer, (2) be available to effectively discuss with other directors concerns about the Company or the Board and relay those concerns, where appropriate, to the president and chief executive officer or other members or committees of the Board, as applicable, (3) ensure the effectiveness of the Board of Directors and that it maintains its independence from management, and (4) be familiar with corporate governance best practices.

Board Access to Senior Management

All Board members have access to senior management, with the expectation that such contact will be minimally disruptive to the business operations of the Company. Such contact, if in writing, should generally be copied to the CEO. The Chair and the CEO are encouraged to invite senior managers who can provide additional insight into business matters being discussed and those with high future potential who should be given personal exposure to members of the Board to the meetings,

Stock Ownership

While the Board believes that it is important that each non-employee director owns shares of the Company's stock, the Board also believes the stock ownership requirement should not adversely affect the Board's ability to attract diverse candidates. Directors should become stockholders of the Company within sixty days after their election to the Board. Non-employee directors generally receive common stock when they are re-elected. Non-employee directors are also able to defer Board compensation pursuant to a plan in which they receive common stock. These plans and incentives help align non-employee directors' interests with shareholders' interests.

The Board believes that the number of shares of the Company's common stock owned by each director is a personal decision.

However, the Board maintains a target ownership guideline for non-employee directors equal to five times the amount of cash retainer for Board service, with five years as the expected time to achieve the target. For the sake of clarity, deferred stock and deferred stock units are included in the calculation of such target.

Additionally, the Board maintains a target ownership guideline for its Chief Executive Officer equal to five times their base salary, to be achieved within five years after the later of their appointment or the initial adoption of the Company's ownership guideline in 2019.

Recovery of Incentive Compensation

Pursuant to the Company's Clawback Policy, the Company may seek reimbursement with respect to incentive compensation paid or awarded to executive officers (as designated by the Board) where such payment or award was predicated upon the achievement of financial results, which financial results were the product of fraudulent activity or that were subsequently the subject of a material negative restatement.

Assessing the Board's Performance

The Board, with the assistance of the Chair and the Governance and Nominating Committee, will conduct an annual evaluation of its overall effectiveness and the effectiveness of each of its committees, including the performance of the Board's and of each committee's governance responsibilities.

Change in Director Circumstances

A director who is also a member of management of the Company will offer to resign from the Board upon their resignation, removal or retirement as a member of the Company's management.

Where a non-employee director significantly changes his or her principal occupation or job responsibilities or becomes aware of personal circumstances that could affect his or her ability to contribute to, or participate as a director of, the Company, the director is expected to offer his or her resignation in writing to the Chair, with a copy to the chairperson of the Governance and Nominating Committee. The Governance and Nominating Committee shall consider such changed circumstances and shall make a recommendation to the Board, which will decide the action, if any, to be taken with respect to such director's offer of resignation.

Outside Board Members Serving on Additional Boards

Board members who are full-time employees of a publicly traded company may serve on no more than one publicly-traded company's board in addition to the Company's Board and his or her own company board when applicable. Non-employee directors who are not full-time employees of a publicly traded company may serve on no more than two publicly-traded companies' boards in addition to the Company's board.

Board members wishing to join the board of another publicly traded company shall first notify the chair of the Governance and Nominating Committee and the Chair prior to joining the board. The chair of the Governance and Nominating Committee shall review the proposed board membership to ensure compliance with applicable laws and policies including potential conflicts of interest.

Term Limits

There are no term limits for service on the Board of Directors. The absence of term limits allows the Company to retain Board members who have been able to develop, over a period of time, increasing insight into the Company and its operations and, therefore, provide an increasing contribution to the Board as a whole.

Age Limits

There is no mandatory retirement age for service on the Board of Directors. The Governance and Nominating Committee may in the future recommend establishing a mandatory retirement age it deems appropriate and in the best interests of the Company and its shareholders.

Resignation, Retirement or Intent not to Stand for Re-election.

If a Board member wishes to resign, retire or not to stand for re-election at the end of his or her current term, the Board member shall notify the Chair in writing, with a copy to the chairperson of the Governance and Nominating Committee. The Governance and Nominating Committee shall evaluate such resignations and shall make a recommendation to the Board, which will decide the action, if any, to be taken with respect to the resignation.

Evaluation of the President and Chief Executive Officer

Each year the chair of the Governance and Nominating Committee and the chair of the HR Committee (based upon discussions with the independent directors of the Board) will conduct a formal evaluation of the performance of the president and /chief executive officer based on appropriate quantitative and qualitative criteria, and meet with such officers to share the findings of such review. The Board believes that the compensation packages for the president and chief executive officer should reflect a strong pay-for-performance objective by aligning their compensation with the achievement of both short-term and long-term financial objectives that build shareholder value. The independent members of the Board approve the compensation packages of the president and chief executive officer.

Succession Planning

The chair of the HR Committee, together with the Chair and the president and chief executive officer, will annually review succession planning with the Board, and provide the Board with a recommendation as to succession in the event of each senior officer's termination of employment with the Company for any reason (including death or disability).

Board Interaction with Institutional Investors, the Media and Customers

The Board believes that the primary responsibility lies with management for communications and relationships on behalf of the Company with institutional investors, the media, and customers. Therefore, the Board may, through the Chair, participate occasionally in such interaction, but will generally do so only at the request of or after providing notice thereof to management.

The Board believes ongoing dialogue with shareholders is important. The Company communicates with shareholders through various means, including our annual report, proxy circular, quarterly reports, news releases, investor conferences and other meetings. In addition, earnings calls are open to all and there is a question and answer period.

Shareholders may also communicate with the Board as set out below and/or as provided in our proxy circular.

Code of Business Conduct and Ethics and other Policies

The Board has previously adopted a Code of Business Conduct and Ethics that is applicable to all employees, officers and directors, along with a Securities Law Policy, a Hedging Transaction Policy, a Whistleblower Policy and an Anti-Corruption Policy. The Board shall periodically evaluate and review such code and policies (and such additional policies as may be advisable) to ensure that they conform to applicable laws and best practices.

Board Attendance at Annual Shareholder Meetings

The Company's policy requires the attendance of all directors at the Annual Meeting of Shareholders, except for absences due to causes beyond the reasonable control of the director. Directors may attend such meetings in person or, where applicable, by electronic means in accordance with the Bylaws.

Shareholder Communication with the Board

Shareholders who wish to communicate with the Board (other than with respect to a complaint or concern regarding accounting, internal accounting controls or auditing matters which must be directed to the Audit Committee) should send written correspondence to the Board in the care of the Secretary, Mercer International Inc., Suite 1120, 700 West Pender Street, Vancouver, B.C., Canada V6C 1G8. The correspondence should indicate that the person sending the correspondence is a shareholder and set out the purpose of such communication. The Secretary will: (i) forward the correspondence to the director to whom it is addressed or, in the case of correspondence addressed to the Board generally, to the Chair; (ii) attempt to handle the inquiry directly where it is a request for information about the Company; or (iii) not forward the correspondence if it is primarily commercial in nature or if it relates to an improper topic. All such correspondence will be summarized for the Board periodically, and each such correspondence will be made available to any director upon request.

These Corporate Governance Guidelines are intended to provide a set of flexible guidelines for the effective functioning of the Board of Directors. The Board shall review these guidelines as required and at least annually and may modify or amend these Corporate Governance Guidelines and the authority and responsibilities of the Board set forth herein at any time.

AUDIT COMMITTEE CHARTER

Purpose

The primary purpose of the Audit Committee (the "**Committee**") is to oversee the accounting and financial reporting processes of Mercer International Inc. (the "**Company**") and the external audit processes. The Committee also assists the Board of Directors of the Company in fulfilling its oversight responsibilities by reviewing the financial information which will be provided to shareholders and others, the systems of internal control which management and the Board of Directors have established, the performance of the internal audit function, the Company's risk management practices, compliance with the Company's Code of Business Conduct and Ethics and the review and approval of related-person transactions required to be disclosed in Proxy Statements.

In fulfilling its purpose, it is the responsibility of the Committee to provide an open avenue of communication between the Board of Directors, management, the internal auditors and the independent auditors. The Committee is an agent of the Board in ensuring the integrity of management and the adequacy of disclosure to shareholders. The opportunity for the independent auditors to meet with the entire Board of Directors as needed is not to be restricted, however. The independent auditors are ultimately accountable to the Committee, as representatives of the Company's shareholders; the Committee has the sole authority to determine funding for, select, evaluate, and, where appropriate, replace the independent auditors. The Committee oversees the independent auditors, including their independence and objectivity.

The Committee members are not acting as professional accountants or auditors, and their functions are not intended to duplicate or substitute for the activities of management and the independent auditors, nor can the Committee certify that the independent auditors are "independent" under applicable rules. The Committee serves a Board-level oversight role in which it provides advice, counsel and direction to management, the internal auditors and the independent auditors on the basis of information it receives, discussions with the independent auditors and the experience of the Committee's members in business, financial and accounting matters.

The Committee relies on: (i) management for the preparation and accuracy of the Company's financial statements and establishing effective internal controls and procedures to ensure the Company's compliance with accounting standards, financial reporting procedures and applicable laws; and (ii) the Company's independent auditors for an unbiased, diligent audit or review, as applicable, of the Company's financial statements and the effectiveness of the Company's internal controls.

Composition

The Committee is appointed by the Board of Directors and its members may be replaced or removed with or without cause by the Board of Directors. The Committee shall be comprised of at least three (3) members, all of whom shall meet the independence requirements of the Nasdaq Stock Market LLC, applicable laws, and rules and regulations of the Securities and Exchange Commission. The members of the Committee shall also meet all financial knowledge and experience qualifications required under rules promulgated by the Nasdaq Stock Market LLC, the Securities and Exchange Commission or other governing body, as may be in effect from time to time. In addition, at least one member of the Committee shall be an "audit committee financial expert" as that term is defined in applicable rules.

Members and a Chair of the Committee shall be recommended by the Governance and Nominating Committee and appointed by the full Board of Directors.

Meetings

The Committee shall meet at least four times per year (in person or telephonically) and may hold additional meetings as often as may be necessary or appropriate in the discretion of the Chair of the Committee. Prior to each meeting, the Chair of the Committee may communicate with the independent auditors to review the agenda and solicit input on any additional topics that should be covered. There will be an executive session at each meeting.

Members of the Committee are expected to use all reasonable efforts to attend each meeting. As necessary or desirable, the Chair may request that members of management, other directors, legal counsel, other advisors and representatives of the independent auditors be present at meetings of the Committee.

The Committee Chair, the Chief Financial Officer and such other Company officers as appropriate will work together to: (i) establish an agenda for each meeting; (ii) prepare pre-reading materials for Committee members; and (iii) arrange for Company personnel to present at Committee meetings or be present for discussions with the Committee.

Minutes of each meeting shall be prepared under the direction of the Chair of the Committee and circulated to Committee members for review and approval.

Committee Authority and Responsibilities

The Committee has the authority necessary to discharge its duties and responsibilities, including to investigate any activity of the Company within its scope of responsibilities, and shall have unrestricted access to members of management and all information relevant to its responsibilities. All employees are directed to cooperate as requested by members of the Committee and the Committee shall have access to the Company's books, records and facilities. The Committee is empowered to retain independent legal counsel and other advisors as it deems necessary or appropriate to assist the Committee in fulfilling its responsibilities. The Committee is empowered to approve the fees and other retention terms of such advisors and the ordinary administrative expenses of the Committee that are necessary or appropriate in carrying out its duties.

The specific responsibilities of the Committee shall include:

Independent Auditors, Audit and Financial Reporting

- The sole authority to appoint and approve all independent auditors, all audit engagement terms and fees to be paid to the independent auditor, oversee and, if the Committee determines necessary or appropriate, replace the independent auditors. This oversight includes:
 - Taking appropriate action to oversee the independence of the independent auditors. Actively engaging in dialogue with them regarding the impact of any disclosed relationships or services to the Company. Annually, receiving from the independent auditors a formal written statement delineating all relationships between the auditors and the Company, consistent with applicable requirements of the Public Company Accounting Oversight Board.

- Reviewing a written report from the independent auditors describing (a) the firm's internal quality control procedures, (b) any material issues raised by the internal quality control review, peer review, the Public Company Accounting Oversight Board review of the firm or by any other inquiry or investigation by governmental or professional authorities regarding audits carried out by the firm and any steps taken to deal with any such issues and (c) all relationships between the firm and the Company or any of its subsidiaries; and discussing with the independent auditors such report and any relationships or services that may impact the objectivity and independence of the auditors.
- Review and discuss with the external auditors the scope and timing of the annual audit examination, including the overall audit strategy and their engagement letter prior to the annual audit. Approve in advance the engagement of the independent auditor and their fees for audit services.
- Review the experience and qualifications of the senior members of the independent auditor team, the quality control procedures of the independent auditor and the rotation of the lead partner and reviewing partner of the independent auditor.
- Evaluate the performance of the independent auditor annually and whether it is appropriate to adopt a policy of rotating independent auditors on a regular basis.
- Pre-approve the retention of the independent auditor for all audit and any permitted non-audit services to be provided by any independent public accountants, including tax services, and the fees for such non-audit services. Adopt specific policies and procedures for such pre-approval, ensuring that they provide sufficient detail so that the Committee's responsibilities are not delegated to management. These policies and procedures may delegate authority to one or more members of the Committee to grant pre-approval, provided that the decision is presented to the Committee at its next scheduled meeting.
- Receive periodic reports from the independent auditor regarding the auditor's independence, discuss such reports with the auditor, consider whether the provision of non-audit services is compatible with maintaining the auditor's independence and, if so determined by the Audit Committee, recommend that the Board take appropriate action to satisfy itself of the independence of the auditor.
- Review and discuss with the independent auditor any other matters required to be discussed by applicable auditing standards.
- Review and pre-approve any hiring by the Company of employees of the independent auditor who were engaged on the Company's account.
- Communicate directly with the independent auditors at any time. Instruct the independent auditors to report directly to the Committee, including with respect to any material difficulties or disputes with management, and ensure they are appropriately resolved.
- Review the audit process with management and the independent auditors, upon completion of their annual audit, to evaluate:
 - The cooperation received by the independent auditors, including access to all requested information and any difficulties encountered during their audit.

- Any instances where management has obtained "second opinions" from other external auditors.
- Any disagreements with management that, if not satisfactorily resolved, would have caused them to modify their report on the financial statements.
- Management's comments regarding the audit.
- The results of the audit, including any significant findings.
- Review the Company's quarterly and annual financial results with management and the independent auditors. This review includes:
 - The financial statements and disclosures to be included in the Company's Annual Report to Shareholders, the Annual Report on Form 10-K, the Quarterly Reports on Form 10-Q, or similar publicly filed documents, including the notes thereto, the form of audit opinion, as applicable, and the disclosure of business risks.
 - Information to be discussed in the Company's quarterly earnings announcements.
 - Significant unusual transactions not a normal part of the Company's operations.
 - Any off-balance sheet structures.
 - The Company's critical accounting policies and new accounting standards and the disclosure of them in "Management's Discussion and Analysis".
 - The CEO and CFO disclosure and certifications under Sections 302 and 906 of the Sarbanes Oxley Act.
 - Significant management judgments and accounting estimates.
 - Major issues regarding accounting principles and financial statement presentations, including any significant changes in the Company's accounting policies or their application, alternative GAAP treatments discussed with the independent auditor and the presentation of any significant transactions.
 - Adjustments proposed by the independent auditors.
 - The independent auditors' audit opinion, their judgment on the quality of the Company's accounting policies, financial reporting and critical audit matters and other matters they are required to communicate to the Committee under applicable professional standards.
 - Other material written communications between the independent auditors and management.
- Based upon the review and discussion of the quarterly and annual financial statements with management and the independent auditors, recommend to the Board that the quarterly and annual financial statements be included in the Company's Annual Report on Forms 10-Q and 10-K.
- Report to shareholders in the Company's annual proxy statement on those matters required by the Securities and Exchange Commission.

Internal Controls, Accounting Personnel, Internal Audit Function and New Policies

- Review management's assessment of the effectiveness of the Company's internal controls over financial reporting (including any significant deficiencies or material weaknesses in the design or operation thereof) and the independent auditor's related attestation. Consider with management, the internal auditors and the independent auditors whether any changes to such internal controls are appropriate.
- Review the appointment and replacement of the senior accounting and financial executives.
- Review periodically, with the independent auditors, the adequacy of the Company's accounting and financial personnel and any relevant recommendations concerning internal controls, accounting principles, and accounting/reporting systems.
- Meet separately with the internal auditors and the independent auditor, in each case without the Company's management present, after each quarterly Committee meeting, and periodically with the Company's management without the internal auditors or the independent auditors present.
- Provide guidance and oversight to the Company's internal audit function, which is to be designed to provide ongoing assessments of the Company's risk management processes and systems of internal control. The internal audit function may be staffed by employees or by an outside firm, other than the Company's independent auditors, engaged by the Committee. The Committee shall oversee the appointment or replacement and compensation of the senior employees in the internal audit group.
- Review with the internal auditors the annual scope and plan of the work to be done by the internal auditor and the results of such work.

- Keep the Company's independent auditor informed of the Committee's understanding of the Company's relationships and transactions with related parties that are significant to the Company and discuss with the independent auditors their evaluation of the Company's identification of, and accounting for, transactions with related parties.

Risk Assessment and Risk Management Policies

- Review periodically and discuss with management the Company's major risk exposures, including financial, operational, privacy, security, cyber-security, climate change, business continuity and legal and regulatory risks, the steps the Company has taken to identify, assess, monitor and mitigate such exposures, including the Company's Business Risk Matrix, and the Company's risk assessment and risk management policies; and regularly report to and review with the Board the substance of such reviews and discussions.
